

# Károly Paczári

## WHY ME

I am a result oriented IT and business professional with over 5 years of experience in business analysis, strategy, project implementation and performance review.

As an experienced Business Analyst / Project Manager, I intend to fill in a similar position in a multinational environment.

My professional practice (Cisco, Oracle and Microsoft) also helps me to utilize my end-to-end business experience and responsibility.

My primary goal is to work on bigger scaled strategic IT development projects and improve my leader and technical skills as well.
